

# Guide to Student Housing in Aarhus

The best and basically only way to find a housing in Aarhus as a student is the [Student Housing Aarhus website](#), unfortunately it does not have the most intuitive UI and is incredibly confusing. We made this guide to help you navigate through.

Once you go on the website you would be greeted with this “beautiful” home page. Probably designed 20 years ago.

# Creating an application

First thing you have to do is create an application **(that also acts as an account later on)**.

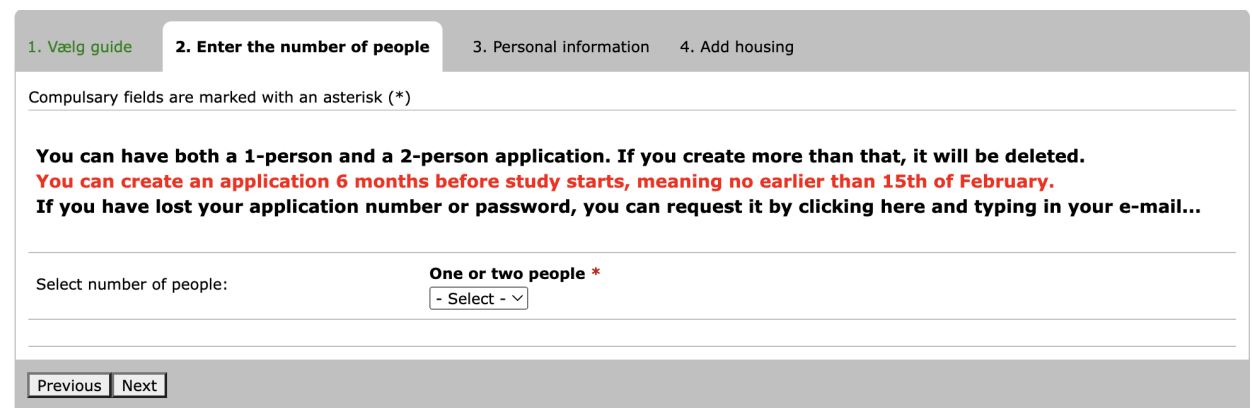

1. You have to click on the create an application link top-left on the page

2. It leads on to a page where you have to choose your language

3. After that you have to enter the number of people and **that part here is important!**

The warning is kind of confusing. What is actually meant here is that you choose the type of application you are doing. Are you doing an application for 2 people or just for yourself.

When you choose one or two people here you are creating such an application and **only when you are finished**, you can go throughout the whole process 1. - 7. again to create a new application for the type you haven't already created (either for one person or 2 people).

4. Then you are greeted with a form which is for your personal information and is relatively straight forward. **Except for the last checkbox (Housing Guarantee).**

Housing guarantee	
Apply for housing guarantee	<input type="checkbox"/> Housing guarantee You can read the terms and conditions here...
Make sure to e-mail your admission letter to us with the study start date (info@UngdomsboligAarhus.dk), no later than the 15th of August.	

You can do a housing guarantee if you really don't care about where you live and you need to be sure you would have a place.

I will give a small description here, but you can read through the [whole rules here](#).

Housing guarantee as the name suggests guarantees that you would have a housing, **BUT**

- **You HAVE to accept the first housing you get doesn't matter if you like it or not.**
- **You will get it before 15th of July, which means you would need to move in earlier**

5. After you finish you should see this if everything has been alright. And you should have received an email. If you did not that means you probably got your email wrong and you need to redo the steps 1.-4.

User logged in
Profile email@email.com created, you should now receive a confirmation e-mail. If you don't, remember to check your spamfilter.

You are logged in, do you want to [edit your profile](#) ?

If you haven't done so already, you must remember to [add housing to your profile](#) , otherwise it will be deleted after 2 days.

You should now click on the add housing to your profile.

6. You will land on this page

Now I suggest you look where your school is and try to find something appropriate for you near the school.

You can use the filters on the left, but keep in mind every time you change a filter you **NEED TO CLICK SEARCH** otherwise the filter would not work.

7. After you filter you need to select the ones that you want to be applied for.

**Keep in mind that some apartments prioritize 2 person applicants.**

Now the only thing left is to click the checkbox on the apartments you like. **THAT WAS IT** clicking of the checkbox means you applied for the apartment And now everything you have to do is **WAIT**

ANKER JENSENS VEJ 5-7
